

English 10: AP Seminar Professional Learning with College Board

This four-day training will provide you with the tools you will need to implement an effective **AP Seminar** course. During this training, you will explore the Capstone QUEST by examining the components of the curriculum framework. You will understand how to use activities that organize concepts and essential questions to develop students' proficiencies in the skills identified by the curriculum framework.

In addition, you will examine the AP Seminar Assessments and develop classroom materials that prepare students to complete them successfully. Finally, you will learn about the AP Course Audit requirements and begin to develop a syllabus that meets these requirements.

- Course goals, objectives, content, and resources
- Curriculum framework of the program
- Teaching strategies and best practices
- Creation of course calendar, class activities, lesson plans, and formative assessments
- Development of course syllabi for the AP Course Audit
- Through-course and end-of-course assessments
- Demonstration of AP Digital Portfolio
