

2025-2026 BOCES/College Board Partnership

College Board is collaborating with BOCES to make the SAT® Suite of Assessments and Advanced Placement® more accessible to districts across New York than ever before. Through a BOCES-College Board partnership, districts are able to benefit from cost effective solutions that support access to the SAT Suite of Assessments, AP® exams and other College Board programs and services.

Benefits of the BOCES Partnership Model

1. BOCES specific pricing model for the [SAT Suite of Assessments](#), not available to individual districts and schools*
2. Ability for districts to purchase AP exams and Pre-AP through a BOCES partnership model
3. Professional learning opportunities for **platform AP courses**: Project-based [English 10: AP Seminar](#), [AP Precalculus](#), [AP African American Studies](#) and [AP Computer Science Principles](#) - courses specifically designed to invite a wide range of students into AP
4. College Board program awareness workshops for BOCES and component district leadership

BOCES Partnership Landing Page

[cb.org/new-york](https://collegeboard.org/new-york)

**Coupled with state aid, this may be the most beneficial model for all component districts as they will pay the same base rate, regardless of individual pricing adjustments. BOCES must offer multiple assessments and/or grade levels in contract.*
